Let's go abroad!

Gain international experience during your studies!

Reasons to study some time abroad

Take in a
new culture

It'll look good
on your CV

See the world

Hone your
language
skills

Gain life
experience

Opportunities

Study abroad

Erasmus+
free mover

Work abroad

Erasmus+
RISE / REACH

Other

thesis
summer school
language courses

Erasmus+

Study abroad

- Study at a partner institution of the faculty of physics
- duration: 3 – 12 months
- Erasmus grant of at least 300 € a month (2018/19)

Work abroad

- Traineeship in countries of the European Union, Island, Lichtenstein, Macedonia, Norway and Turkey
- duration: at least 8 weeks, up to 12 months
- Erasmus grant of at least 400 € a month (2018/19)

Erasmus+ partners of the faculty of physics

 **Island: Reykjavik**
Bachelor

 **Norway: Trondheim**
Bachelor

 **Netherlands: Eindhoven**
Bachelor, Master

 **France: Toulouse**
Bachelor, Master

 **Portugal: Lisbon**
Master

 **Spain: Granada**
Bachelor

 **Italy: Parma**
Bachelor

 **Finnland: Oulu**
Master

 **Poland: Wroclaw**
Bachelor

 **Austria: Linz**
Bachelor, Master

 **Hungary: Budapest**
Bachelor

 **Rumania: Bukarest**
Bachelor

 **Greece: Thessaloniki**
Bachelor, Master

How to apply for Erasmus+

Select a
partner
university

Online
application
until 31.01.

documents:
motivation
letter,
performance
record, CV,...

Nomination
by the
faculty of
physics,
then
application
at the guest
university

Prepare your
stay abroad:
insurances,
housing,
apply for
holiday
semester,...

Study abroad as „free mover“/visiting student

Most universities allow students to study up to one year as visiting non-degree student!

- tuition fees have to be paid
- funding of such a stay is up to the student, e.g. grants (PROMOS, DUE-Mobil, other programs of the DAAD,...)

⇒ **You need to be proactive!**

We will support you.

**FORSCHUNGSPRAKTIKA
WELTWEIT
SOMMER 2018**
FÜR STUDIERENDE IN DEN INGENIEUR-
UND NATURWISSENSCHAFTEN

DAAD Deutscher Akademischer Austauschdienst
German Academic Exchange Service

**Praktisch.
International.
Karrierefördernd.**

**Bewerbungsfrist:
1. November bis
15. Dezember 2017**

**Sonderschiene Kanada:
Ende Juli bis
Mitte September 2017**

Der DAAD bietet Bachelor-Studierenden in den Fachrichtungen Biologie, Chemie, Physik, Ingenieurwissenschaften, Geowissenschaften und (neu) Informatik sowie angrenzenden Disziplinen (z.B. Medizin) die Möglichkeit zu einem Forschungsaufenthalt weltweit.

Die Forschungspraktika finden während der vorlesungsfreien Zeit im Sommer statt. Ein Stipendium hilft Ihnen bei der Deckung der Lebenshaltungskosten!

Möchten Sie mehr über RISE weltweit erfahren?

Kontaktieren Sie uns unter:
rise-ww@daad.de

RISE Research Internships
In Science and Engineering

RISE

Research Internships in Science and Engineering

Research internship around the world during summer

Bachelor students

Monthly grant, travel costs, health insurance

German Academic Exchange Service (DAAD)

Application: November/December

„Auslands-BAföG“

- study and internships abroad
- worldwide
- financial support for up to one year
- BAföG basic amount plus surcharge (non EU countries), travel costs and tuition fees (up to 4600 € per year)
- for students of physics: the period of time during which you receive Auslands-BAföG does not count to the maximal period of time of BAföG benefits

Grants

- Study abroad worldwide for 6 or 12 months
- funding depends on grand and target country
- most important funding organisation:
German Academic Exchange Service (DAAD)

PROMOS/DUE-Mobil

- Study and internships abroad (in countries that do not participate in Erasmus+)
- Summer schools and other specialised courses worldwide
- duration max 6 months

How to apply for a scholarship

Choose a
country and a
university

Look for
funding
opportunities

Apply at the
guest
university and
for funding

scholarship
donor

Selection
process

Prepare your
stay abroad:
insurances,
housing,
apply for
holiday
semester,...

Will a stay abroad delay my studies?

There is a chance that a stay abroad prolongs your studies, but:

- there is a good reason for an additional semester
- you gain so much experience that the time delay is relative
- a stay abroad testifies flexibility, motivation and more
- international competence is an essential skill in a global world
- you can take a holiday semester

Conclusion: A stay abroad is well worth a delay of your studies!

**OUTGOING
MESSE**

Starte dein Praktikum oder Studium im Ausland!

**23. Oktober
11-16 Uhr
Campus Essen
R12 S00 H12 (Glaspavillon)**

● Barrierefreie Veranstaltung
