

## PI of IMPRS SusMet

January 2022

### MPI für Eisenforschung

- |                      |  |
|----------------------|--|
| 1. Gerhard Dehm      | Department of Structure and Nano-/ Micromechanics of Materials |
| 2. Jörg Neugebauer   | Department of Computational Materials Design                   |
| 3. Dierk Raabe       | Department of Microstructure Physics and Alloy Design          |
| 4. Michael Rohwerder | Department of Interface Chemistry and Surface Engineering      |
| 5. Christina Scheu   | Independent Research Group on Nanoanalytics and Interfaces     |

### MPI für Kohlenforschung

- |                         |   |
|-------------------------|---|
| 6. Ferdi Schüth         | Department of Heterogeneous Catalysis                         |
| 7. Claudia Weidenthaler | Research Group on Powder Diffraction and Surface Spectroscopy |

### Ruhr-Universität Bochum

#### Faculty of Mechanical Engineering

- |                        |   |
|------------------------|---|
| 8. Gunther Eggeler     | Materials Science and Engineering         |
| 9. Alexander Hartmaier | Micromechanical and Macroscopic Modelling |
| 10. Rebecca Janisch    | Mechanical Properties of Interfaces       |
| 11. Tong Li            | Atomic-Scale Characterisation             |
| 12. Alfred Ludwig      | Materials Discovery and Interfaces        |
| 13. Jan Sehr           | Hybrid Additive Manufacturing             |
| 14. Sebastian Weber    | Materials Technology                      |

#### Faculty of Physics

- |                       |                                    |
|-----------------------|------------------------------------|
| 15. Ralf Drautz       | Atomistic Modelling and Simulation |
| 16. Achim von Keudell | Experimental Physics               |

#### Faculty of Chemistry

- |                       |  |
|-----------------------|--|
| 17. Kristina Tschulik | Electrochemistry & Nanoscale Materials |
|-----------------------|--|

#### Faculty of Electrical Engineering and Information Technology

- |                        |   |
|------------------------|---|
| 18. Thomas Mussenbrock | Applied Electrodynamics and Plasma Technology |
|------------------------|---|

### Universität Duisburg-Essen

#### Faculty of Engineering

- |                     |   |
|---------------------|---|
| 19. Rüdiger Deike   | Metallurgy of Iron and Steel Production |
| 20. Andreas Kempf   | Fluid Dynamics                          |
| 21. Christof Schulz | Reactive Fluids                         |

#### Faculty of Physics

- |                        |                                 |
|------------------------|---------------------------------|
| 22. Rossitza Pentcheva | Computational Materials Physics |
|------------------------|---------------------------------|

**Board**

Jörg Neugebauer, Spokesperson  
Gunther Eggeler, Spokesperson  
Ferdinand Schüth  
Christof Schulz

**Coordination Team**

Stefan Wipperman, MPIE (Scientific Coordination)  
Elke Gattermann, MPIE (Program Coordination)  
Christoph Somsen, RUB  
Tobias Teckentrup, UDE
