WLAN settings: eduroam

Android

First - if available - delete the old configuration of "eduroam"!

Then connect with "eduroam".

The configuration overview looks similar to this (varies depending on the manufacturer):

Netzwerkname	
eduroam	
Sicherheit	
WPA/WPA2/WPA3-Enterprise	•
EAP-Methode	
TTLS	*
Phase 2-Authentifizierung	
MS-CHAP v2	•
CA-Zertifikat	
Systemzertifikate verwenden	•
Online-Zertifikatstatus	
Nicht validieren	•
Domain	
uni-due.de	
Identität	
UNIKENNUNG@uni-due.de	
Anonyme Identität	
eduroam@uni-due.de	
Passwort	
•••••	

Some settings are only visible when you call up the "advanced settings.

Please adjust the following settings:
