

STUDY TRIPS

Study trips worldwide can be funded through PROMOS & DUE-Mobil.

- **Duration of the study trip:** a minimum of five and a maximum of twelve days (including outbound and return travel)
- **Participants:** at least five students and a maximum of one supervisor (e.g. teaching staff/professor from the University)
- **Funding:** funding for study trips is possible in the form of lump sums for the stay (€30 within the Erasmus+ territory and €45 beyond it) per day and participant. The funded period is always between five and twelve days, even if the trip is longer in total.

APPLICATION

Applications for study trips must be submitted directly to the International Office. For this line of funding, it is not necessary to apply via the online application form. Please send applications for study trips directly to promos-duemobil@uni-due.de as a PDF file containing the following documents (one file, 2 MB max.):

- Detailed description of the project including the agenda and schedule
- Statement on the contents that participants need to prepare and follow up on
- Detailed budget plan
- Letter of invitation from the university/research institution abroad
- List of participants
- Module description

In addition to conveying subject-specific knowledge and insights into the local culture and society, a focus must be placed on interactions with international students and researchers at the destination.

The University selects the participants for a study trip at its own discretion.

A separate list of participants is to be kept and signed by the participants in order to claim the lump sums for the stay.
